

two years ago. My only information on this is the fact that a block of four of the 50c, 7th issue, B. C. Laws, part perforated, was listed as lot #1323 of the Sissons & Wegg auction sale on September 12, 1946, and it realized \$72.50 for the block.

## Trail of the Caribou

Word has just been received that the issued date of the 5c Cabot Commemorative with plate number 43476 was December 15, 1947. Our guess that the original plates were being used for the plate numbered sheets has been confirmed by an unimpeachable source.

The air mail parcel post service extends only to the United States. All air mail items addressed to other countries are liable to the air mail letter rate of postage and to the limits of weight and size applicable to letters.

There is an inland air mail service which operates between St. Johns, Gander and Goose Airport only. The rate is the same as that applicable to Canada.

With most of the airmail rates in multiples of 10c, it has always been a mystery to us why Newfoundland is limping along with just the 7c airmail stamp. Seems to us that a 10c airmail stamp is indicated. Perhaps we will

have one soon. A 20c and 30c airmail stamp wouldn't be out of place either. They should have kept the Labrador airmails current, they could use those values today.

We have news for Rev. Bain—England put Confederation with Canada back on the ballot despite the 26-16 National Convention vote to keep it off. Les Freres Meyerson are for anything but Confederation!!
